

World Bathing Day, Tuesday 22nd June 2021

Media release: June 2021

Global bathing community come together with a first ever global live streamed music event – Global Sound Bath

Hot Springs around the world will come together for the first time on Tuesday 22 June 2021 in a music and cultural live streamed showcase.

An initiative of the Bathe the World Foundation and the Global Wellness Institute Hot Springs Initiative, World Bathing Day is an international celebration of water and the diverse rituals and cultural traditions associated with the act of bathing and cleansing.

People are encouraged to post selfies while enjoying bathing on the day as part of the [Instagram sunrise pics](#). Hashtag #worldbathingday and follow @worldbathingday_

This year will be even more special as Hot Springs and musical artists from around the world link together in the first ever global world music event - Global Sound Bath.

The musical live stream event will follow the path of the sun around our planet starting in New Zealand and moving west across to Australia, to Japan, then across to Europe finishing in the United States.

The Global Sound Bath will feature up to 30 minutes of live musical performances from local artists from each host thermal hot springs venue, providing an opportunity for global audiences to experience the unique culture of each Hot Springs destination around the world at approximately 7pm local time.

Join our live streamed Global Sound Bath event:
